Education

Birla Institute of Technology and Science, Pilani Campus

2019 – 2023

Bachelor of Engineering (Honours.) in Computer Science

Pilani, Rajasthan

Experience

Toast Inc.

July 2025 – Present

Software Engineer

Bangalore, Karnataka

- Integrated **Adyen** across payment services for card captures, bank-transfer initiation, chargebacks, refunds, and internal account transfers.
- Enhanced payout systems serving over **160,000 merchants** through **Chase** and **Worldpay**, ensuring reliable and scalable fund disbursement.
- Developed a **withholding service** to deduct loan EMIs, chargebacks, refunds, and other outstanding balances from merchant payouts.
- Built event-driven **reconciliation services** to detect FBO balance discrepancies and generate next-day alerts for unresolved balances.
- Developed a **Notification of Change consumer** to automatically synchronize merchant bank-account updates across internal systems.
- Built **ReviewIQ**, an end-to-end AI product that analyzes reviews and ratings across multiple platforms to generate actionable merchant insights; recognized by the **CTO** and selected for inclusion in the existing AI suite.
- Tech Stack: Kotlin, Dropwizard, Apache Pulsar, DynamoDB, Gradle, Python, REST APIs, Microservices, Datadog

Cisco Systems

August 2023 – July 2025

Software Engineer

Bangalore, Karnataka

- Responsible for building **REST API** backend of a **Health Monitoring Tool** that monitors health of various internal tools and optimizing the use of development resources like router testbeds and remote VMs.
- Developed a **Consistency Checker** end to end for Layer 2 interfaces to check consistency at various levels including **Software programming** and **Hardware programming**
- Worked on various features in **L2VPN** in **IOS-XR** - router's operating system.
- Tech Stack: Python, PyAts, Pytest, Java, Springboot, C, Router's CLI, Layer 2 Networking Protocols

Cisco Systems

January 2023 – June 2023

Software Engineering Intern

Bangalore, Karnataka

- Worked on the automation Package CAFY(Cisco Automation Factory) developed over **Pytest** framework to automate the Sanity check processes at the scale level.

Projects

Tourify App | [🔗 Tourify](#)

2024

- Built a full-stack platform where guides can host tours and users can discover, book, and review them.
- Developed protected REST APIs for tour management, bookings, reviews, authentication, and payment processing.

Private Chat Room | [🔗 Chat App](#)

2022

- Built a private chat-room application where users can create and join rooms using unique room codes.
- Implemented real-time messaging, image sharing, and location sharing using WebSockets.

Tools and Technologies

Python, C/C++, Typescript, Java, HTML/CSS, NodeJS, ExpressJS, Springboot, NestJS, Spring.io, Socket.io, PyAts, Pytest, API Integration, Database Management, MongoDB, MySQL, Postgres, Docker, kubernetes, Kafka, Computer Networks, Multithreading, Postman, Brevo, Stripe, Git, L2 networking protocols

Online Courses and Certifications

Advanced Backend Development using NodeJS and Express (Udemy)
Python for everybody (Specialization) (University of Michigan)
SQL Bootcamp (Udemy)
Bits and Bytes of Computer Networking (Google)

Test Scores

- JEE Advanced: AIR 2291
- BITSAT Score: 398/450
